Flower Growing Information

In 2022, all flower seeds are donations so, in some cases, color and/or variety will be a surprise!

While we have made our best effort to provide accurate growing instructions, there are many factors that affect your growing success. Please use this information along with that found in available websites and reference materials.

Information gathered from Baker Creek Heirloom Seeds: <https://www.rareseeds.com>

		Hours of Sun/Day	Days to Sprout	Ideal Temp./ Degrees F	Seed Depth "	Plant Spacing "	Color
